

Pillar Water Monitor

Pillar's non-invasive Water Monitor allows you to quickly install and detect water flow on your job site. Whether on the weekend or after hours, make sure you know when water is flowing, and more importantly when it shouldn't be.

)) **POWER**
120V

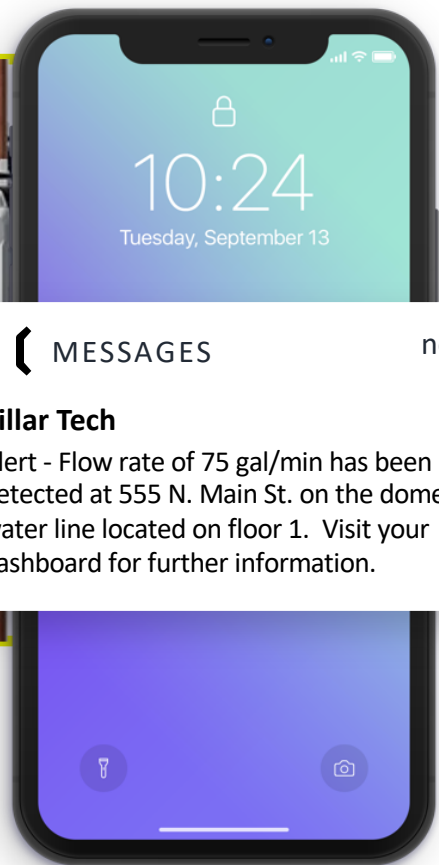

)) **CLAMPS TO PIPE (NON-INVASIVE)**
Ultrasonic flow sensor

)) **MONITORS**
Water flow rate & pipe temperature

)) **SIZED FOR DIFFERENT PIPES**
1.5" to 8.25"
